## Using Event Features/Functions

Before using Event Features and Functions, you must first tap “Start Event” (see image on page 1)

Tap  to launch the turn-by-turn navigation. This will show the entire route as turn-by-turn directions and speak directions over your phone speaker or connected audio system.

When using turn-by-turn navigation, tap the directions at the top of the screen to generate a complete list of every step of the route.

Tap  for a full view of the entire route. Tap “Resume” to cancel this view.

Tap  to toggle audio directions.

Tap “Back” to return to the main event screen.

Tap “Finish” to end turn-by-turn navigation.

Tap  to report a road hazard. This will populate a Chat notification and Map Alert for *all participants* on your drive.

Tap  to report police activity or a speed trap. This will populate a Chat notification and Map Alert for *all participants* on your drive.

Tap  to notify your group that you require assistance on the road. Your vehicle icon on the map will turn **red** across all participants’ screens, and a Chat notification will further alert the group.

*If this is an emergency situation, note that this feature does NOT notify police. Contact local emergency services as soon as possible for professional response.*

Tap  to rejoin the route. This is useful in the event that you turn off the app or go off route.

Tap  to open the Walkie Talkie interface.

Using the Walkie Talkie feature:

1. Tap 
2. Immediately begin speaking

3. Tap "Send" when done
4. Your message will automatically play on all mobile devices participating in the event

Tap  to open the Chat interface. Messages typed here will transmit to all participants in the event.

Tap  to open the legend, similar to what you see here.

### Ending an Event

When you've completed your event, tap "Stop Event" to end your participation.
